

Skeet

1. Push button on skeet remote to turn the counter on. (Underneath high house)
2. Insert skeet card, click yellow button to transfer 1 round to counter.
3. Remove the skeet card. (It will not work if the skeet card is still inserted into the counter.)
4. To add more than 1 round at a time, repeat steps 1-3.

On your first loss bird, you will use your 'mulligan/extra' shell to have a second attempt.

(If using Lapel mic, unplug mic before attempting to turn skeet counter on)
